SUMMARY

I am a dedicated and skilled Frontend Developer experienced in creating dynamic and responsive web applications. My expertise includes working with modern technologies such as React.js, Tailwind CSS, and JavaScript frameworks, focusing on user experience and accessibility. I thrive in collaborative environments and am passionate about leveraging technology to solve real-world problems

EXPERIENCE

Frontend Developer

Vani Technologies

05/2024 - 01/1970 Indore, Madhya Pradesh

A technology company focusing on web and mobile application development

- Collaborated on developing responsive, user-friendly interfaces using React.js, Tailwind CSS, and modern JavaScript frameworks
- Implemented RESTful API integrations to dynamically render and manage data on the frontend, improving usability and efficiency
- Enhanced UI performance and accessibility through optimized component structure, state management, and reusable design patterns

Trainee Software Developer

Gigatorb Software Pvt Ltd

08/2023 - 01/2024 Indore, Madhya Pradesh

A software development company specializing in high-quality web solutions

- Developed dynamic React.js interfaces with Tailwind CSS, increasing interactivity and enhancing the overall user experience
- Integrated APIs to fetch, display, and manage data efficiently, contributing to production-level web applications
